

Charlie Philpott

Web Designer

About Me

My passion is the creation of any form of digital design, from animation to photography but I adore, **Web Design**. Everything about it interests me.... and sometime frustrates me, from designing the visual elements to the coding which brings them to life. I am currently looking for an employer which will help me build on the skills I have gained from both university and previous employers, whilst I strive to advance myself within all the aspects of web design.

To view my **recent work**, discover my **skills** and to get to know a bit more **about me** please view my online portfolio on the address above.

Experience

Freelance Web Designer

Currently I am a **Freelance web designer**. I have created visually attractive websites which have been specifically catered to the specifications of the client. With each project, I have progressed my coding knowledge and design skills which I am striving to always improve.

Artwork Creative

Throughout my final semester at university, I enrolled on a work placement at Artwork Creative. My duties included the creation of a variety of specifically designed **website concepts**, informational posters and imagery manipulation. I also acquired the knowledge to **communicate with clients** and successfully **meet tight deadlines**.

Qualifications

Creative Digital Media BA (Hons)

I recently completed my study of **Creative Digital Media BA (Hons)** at the **University of Worcester**. Throughout my time at University, I have advanced my skills and knowledge of a variety of different medias, particularly in Web Design. I have gained an in-depth knowledge of a array of different design software, which assists me in creating visually attractive imagery and mock ups. My education has also assisted in the progression of my **communicational skills** and working **individually** and in a **group environment**.
